HOW TO BREW COFFEE, TEA AND HOT CHOCOLATE

1 Place a hot cup on the cup stand and select the hot drink Freshpack of your choice.

2 Select your drink from the carousel on the screen or select "Touch to Insert Pack" and follow the guided brewing instructions.

3 Open the brewer door and remove any packs.

4 Insert your Freshpack and close the door. Be sure to push the pack until you hear a click.

5 Select your drink size and strength, then touch Start.

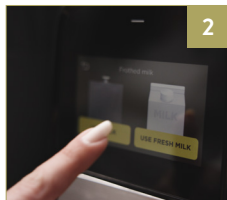

6 The brewer will brew your hot drink and let you know when it's ready for you to enjoy. Please remember to remove the Freshpack from the brewer.

Caution: Your drink is hot!

HOW TO BREW SPECIALTY DRINKS

1 Select Latte, Cappuccino or Mocha from the drink's carousel or select "Touch to Insert Pack" and follow the guided brewing instructions.

2 With the C300 you have the option to choose between "Use Pack" or "Use Fresh Milk". Please choose one and place your cup on the cup stand.

Froth Freshpack:

Open the door, remove any Freshpacks, insert the froth pack, place your cup on the cup stand and touch continue.

3B Fresh Milk:
Pour 3 oz. of milk or non-dairy alternative into your cup, place it on the cup stand and touch continue.
Note: If there is a Freshpack in the brewer you will be prompted to remove it.

4 Once the frothed milk is ready, open the pack door, remove any Freshpacks, insert the Freshpack of your choice and close the door. Be sure to push the pack in until you hear a click.

5 The brewer will brew your specialty drink and let you know when it's ready for you to enjoy. Please remember to remove the Freshpack from the brewer.
Caution: Your drink is hot!
